

Resume for Anastasia Filatova

I am 33 yo, residing in UAE since 2001.

Fluent in Russian and English, excellent computer skills, communication, time management and organizational skills.

Hard working and a people person.

Growing up in Dubai, with 89% expats from all over the world, I can find common language with anyone.

I mainly work as a Producer / Production Manager on TV commercials, it often correlates with managing locations, assisting directors, casting, liaising between directors, creative agencies, various departments and crew, a bit of everything really.

I have experience working with feature films, TV series, documentaries, music videos, corporate films, social media, post production, event organizing.

I catch on quickly and am always looking for new challenges.

I have recently started to work as a Continuity Supervisor. It's been great fun and I would love to work more in that direction where possible.
