YouTube - KFCam1

Drivers License - UAE.

South African - Passport

Residence Visa - Dubai

After my military service and training .I joined the STAR Newspaper in Johannesburg South Africa as a junior Photographer,I did my apprenticeship for 3 years and then decided to move on. This move was into the Film Industry in Johannesburg and Cape Town in South Africa.

It was an incredible time in the film industry in SA , as we were in a filmmaking boom.

I started at the bottom as a 2nd Camera Assistant(clapper loader) and worked my way up through to 1st Cam: Asst.

then to Operator and then to a Lighting Cameraman.
I was fortunate to be able to work and study under some of the top award winning local and international DOP's and Directors.

I was also fortunate enough to be able to travel abroad extensively with some of the D O P's as part of their ' Camera Team '.

I have worked on Feature Films , Drama Series , Documentaries ,Corporate Films , Events and TVC's ,and have used a wide range of Cameras and Lenses in order to capture some amazing images.

Please feel free to contact me for any further information

Most of the motor car shoots below , I was the operator on remote heads on Tracking Vehicles or Russian Arm , Telescopic Cranes .
