---

---

I am Shiva. I love colors, forms and portrait images.  
Painting on canvas, portrait drawing and a way to express  
emotions through photo frames are my best experiences.  
The fruitful years of studying and working in Iran, which started  
with painting and graphic design, taught me the first step of  
having the right view.  
Theatre directing helped me manage the situations and create a  
final form and the cultural management gave me the chance of  
meeting and facing people of different nationalities.  
Years of working in the UAE paved my way for improvement in  
what I have learned so far.  
I love picturing.
